Symbols Used in Relay Function Charts

- \( \bar{A} \) Signifies that \( A \) Operates
- \( A^L \) Signifies that \( A \) Operates and Locks
- \( A' \) Signifies that \( A \) Releases
- \( \bar{A} \) Signifies that \( A \) Is Operated
- \( A^L' \) Signifies that \( A \) Is Operated; now Locks
- \( A'^L \) Signifies that \( A \) Is Released
- \( P^S \) Signifies that Polar Relay \( P \) Operates to Its Spacing Contact
- \( P^M \) Signifies that Polar Relay \( P \) Operates to Its Marking Contact
- \( P^3 \) Signifies that Polar Relay \( P \) Operates to Its No. 3 Contact

Teletypewriter Symbols

- \( \wedge \) Figures
- \( \vee \) Letters
- \( \ll \) Carriage Return
- \( \equiv \) Line Feed
