1. GENERAL

1.01 This section contains the specific lubrication procedures for the answer-back mechanism of a 28 transmitter-distributor base, if so equipped. The material herein, together with the section entitled Teletypewriter Apparatus, Lubrication, General Information and Routines, provides the complete lubrication information for maintenance. The lubrication symbols used herein are the same as those in the general section. However, the symbol 0 is used in this section to mean only one drop of oil. Symbols, such as 02 and 04, are used herein to specify that two or four drops respectively are to be applied at the points indicated.
2. LUBRICATION DETAILS

2.01 Clutch-trip Magnet Mechanism

2.02 Contact Lever Assembly
2.03 Cam Shaft and Clutch Assembly

O4 INTERNAL MECHANISM
SAT FELT OILERS (9)
O4 OIL HOLES (2)

2.04 Driven and Driving Gears
