Recommended Reading... Looking for up-to-the-minute answers about the latest Teletype data communications equipment? Teletype has informative brochures and fact sheets on equipment capability, applications, and case histories that are yours for the asking. For a current listing of available literature, please write for, “How to get information on Teletype equipment, applications and case histories,” to Teletype Corporation, Dept. SP 85, 5555 Touhy Avenue, Skokie, Illinois 60076.
The paper and tape handling accessories described in this catalog may be employed in many different configurations to organize and simplify media handling on your Teletype® data communications terminals. The proper combination of winders, unwinders, guides, and copy holders can greatly increase operator efficiency, and decrease the chances of lost or damaged data.

To simplify selection of the accessories required for your application, a number of typical paper and tape handling configurations are shown on pages 3 through 10. For winders and unwinders these pages will refer you to more detailed descriptive information on pages 11 through 13. Ordering information for spare reels, adapters, and tape splicers, and a table of available paint finishes are found on pages 14 and 15.

In cases where your tape must be moved from a winder to an unwinder, be sure that the "core" or hole diameter of the tape roll removed from the winder will fit on the unwinder.

---

### Paper Tape Splicers

**99214 Tape Splicer**

Overlap splices 11/16 inch, 5-level, chadless punched paper tape. Uses chads to join tapes together—no glue required. Includes mounting screws for attaching to wood surface. 103074 Weighted Base makes splicer portable. Increases dimensions to 7 1/4 by 4 by 4 1/8 inches high.

**317212 Tape Splicer**

 Butt splices 11/16 inch, 5-level; 1/8 inch, 6-level advanced feed hole; and 1 inch, 8-level punched paper tape. Order Splicing Patches 317326, 317325 or 317328 (not shown) respectively.

Model 37 color is GF. TGA available for 28 only.
- reels and adapters for tape winders and unwinders

199901 (7 1/8") and 194748 (8 7/8") Reels

196223 plus 194769 Reel
Used on TWs 18 and 19.

199958 Supply Reel
Used in Telespeed 1050 receiver terminals. Handles up to 3000 feet of up to 1 inch tape

199901 (above)

146236 Reel
Used on TW17.

1 1/16" dia.

15 1/2" dia.

1/2" diameter

2 1/8" 8 1/8"

Rear half can be used alone to wind and easily remove short lengths of tape.

326916 Front Form Supplier
Holds box of fanfolded forms, and guides forms up to printer. Handles forms 5 1/2 to 11 inches in length; 3 1/4 to 9 inches in width.

326970 Tape Bin
Provides a place for tape to collect between the time it's punched and the time it's read. Fits inside terminal (behind tape module door). Handles up to 80 feet of 1 inch tape.

326955GF Door with Tape Winder
(top reel only)
326960GF Door with Tape Winder and Tape Winder-Unwinder
(as shown)

Each reel winds up to 1000 feet of 1 inch paper tape. Automatic—winds when tape is slack, stops when taut, vice versa for unwinding. 115 vac 60 Hz.
**Offset Copyholder and Letter Tray**
Provides typist's easel, letter tray, and purse hook. Adds 2 inches to depth, 5 inches to width, and 8 1/2 inches to height of the set.

**Directory Holder**
(normally mounted on left side)
Adds 2 inches to width of set.

**Paper Roll Latch**
(not shown)
Secures spindle, prevents paper roll from being dumped out of holder if set is tipped.

**Multicopy Roll Paper Adaptor**
(not shown)
Adapts 8 1/2 inch platen set to use multicopy roll paper.

**Electrostatic Charge Eliminator**
(not shown)
Removes charge to prevent paper from clinging to set.

**Form Supply and Accumulator**
Holts fanfold forms going into set, and accumulates forms coming out of set. Forms can be 3% to 11 inches long and 3% to 9 inches wide. Includes pedestal foot rear extension to prevent set tipping from weight of forms. Adds 16 1/2 inches to depth of set.

**LPW300** Paper Winder
Displays print-out leaving set and winds on spindle. Handles single ply paper up to 400 feet long, installed on Model 28 or 35 sets; up to 320 feet long, installed on Model 32 or 33 sets. Paper width can be 4 1/4 to 8 1/2 inches. Automatically winds when paper is slack, and stops when taut. Motor driven: 115 vac 50/60 Hz. Removable spindle. Adds 7 1/2 inches to depth, and 12 inches to height of terminal it is installed on. Order 193950 hardware to install winder on Model 28 or 35 sets. Order 178598 hardware for Model 28 or 35 Wall Mounted Sets; plus 322033 hardware for these sets when using paper 7 inches or less in width. Order 195259** hardware for Model 32 or 33 sets. 

**YPW600GF Paper Winder** (for 37 terminal)
Same description as for LPW300 installed on a 35, except it is installed on upper portion of pedestal. All hardware included.

**LPW300** Paper Winder
Shown installed on pages 4, 6, and 8. Displays print-out leaving set and winds on spindle. Handles single ply paper up to 400 feet long, installed on Model 28 or 35 sets; up to 320 feet long, installed on Model 32 or 33 sets. Paper width can be 4 1/4 to 8 1/2 inches. Automatically winds when paper is slack, and stops when taut. Motor driven: 115 vac 50/60 Hz. Removable spindle. Adds 7 1/2 inches to depth, and 12 inches to height of terminal it is installed on. Order 193950 hardware to install winder on Model 28 or 35 sets. Order 178598 hardware for Model 28 or 35 Wall Mounted Sets; plus 322033 hardware for these sets when using paper 7 inches or less in width. Order 195259** hardware for Model 32 or 33 sets. 

**YPW600GF Paper Winder** (for 37 terminal)
Same description as for LPW300 installed on a 35, except it is installed on upper portion of pedestal. All hardware included.

*A two letter paint color-finish suffix must be specified; see page 15.
...winder and unwinder descriptions (cont'd)...

**notes:**
1. Order 320278** Shelf.
2. Order 199924 Top Shelf (shown on set) or 321585** Top Shelf (shown via Inset A).
3. Order 199918 Double Shelf (shown on set; provides top and bottom shelf) or 321586** Double Shelf (same except top shelf appears as shown via Inset A).
4. Order 199928 Shelf (shown on set) or 321584** Shelf (shown via Inset B).
5. Order 199934 Shelf (shown on set).
6. This unwinder sits on the floor.

*Winders and unwinders are described on page 11.
**A two letter paint color-finish suffix must be specified, see page 15.
** Paper Winder

Paper Winder and Unwinder Descriptions

- **Directory Holder**
  - For floor model sets.
  - 152306™ Directory Holder (not shown)
  - For table model sets.
  - Both add 2 inches to width of set.

- **Copyholder**
  - 153046 Copyholder
    - Serves as typist’s easel.

- **Offset Copyholder**
  - 179601™ Offset Copyholder
    - Rear mounted. Serves as typist’s easel.
    - For floor or table model sets.
    - Adds 12 inches to width and 8 inches to height of set.

- **LPW300™ Paper Winder**
  - (described on page 13)

- **179387™ Electrostatic Charge Eliminator**
  - (not shown)
  - Removes charge to prevent paper from clinging to set.

- **179491™ Support**
  - Prevents set tipping from weight of forms.

- **178977™ Offset**
  - Copyholder
    - Rear mounted. Serves as typist’s easel.
    - For floor model set (shown).

- **178400™ Offset Copyholder**
  - For table model set.
  - Both add 12 inches to width and 5 inches to height of set.

- **151799 Paper Roll Latch**
  - (not shown)
  - Secures spindle, prevents paper roll from being dumped out of holder if set is tipped.

- **Roll Paper Adaptor**
  - (not shown)
  - Adapts multicopy roll paper.

- **Copyholder**
  - 152340 Multicopy Roll Paper Adaptor
    - (not shown)
    - Adapts 8½-inch platen set to use multicopy roll paper.

- **Tape Winder and Unwinder Capabilities**
  - All handle up to 1 inch wide paper tape. In cases where your tape must be moved from a winder to an unwinder, be sure that the “core” or hole diameter of the tape roll removed from the winder will fit on the unwinder.

- **Tape Winder and Unwinder Dimensions**
  - 146815
  - 146892™
  - 199901
  - 26½ lbs.
  - **A two letter paint color-finish suffix must be specified, see page 15.

- **Spring**
  - 115 vac, 50/60 Hz
  - 115 vac, 60 Hz
  - none required

- **Motor Driven Winders and Unwinders**
  - 6 motor driven winders and unwinders include on-off switch, fusing, and power cord.

- **146892™ Unwinder**
  - Has an automatic brake which prevents unwanted inertial freewheeling. Works in CW or CCW direction.
  - # 199955 Unwinder has a magnetic base.

- **Tape Winder and Unwinder Descriptions**
  - 146821™
  - 195105™
  - 115 vac, 50/60 Hz
  - 115 vac, 50/60 Hz
  - none required

- **Tape Winder and Unwinder Capabilities**
  - All handle up to 1 inch wide paper tape. In cases where your tape must be moved from a winder to an unwinder, be sure that the “core” or hole diameter of the tape roll removed from the winder will fit on the unwinder.

- **Tape Winder and Unwinder Dimensions**
  - 146815
  - 146892™
  - 199901
  - 26½ lbs.
  - **A two letter paint color-finish suffix must be specified, see page 15.
notes:
1 Order 329100 Mounting Board (shown). Mounts a winder, unwinder, and reader. Laminated plastic covered and is 28 by 16 by 1/2 inches, 12 pounds.
2 Not mounted. Set next to reader.

*tWinders and unwinders are described on page 11. **A two letter paint color-finish suffix must be specified, see page 15.
**Form Supply and Accumulator**
Holds supply of fanfold forms going into set, and accumulates forms coming out. Forms can be 6 to 12 inches long, 8½ inches wide. Adds 17 inches to depth of set.

**Adjustable Copyholder**
Serves as typist's easel. Replaces one already on set with one that's adjustable.

**Tape and Chad Bin**
Provides a place for tape to collect between the time it's punched and the time it's read. Handles up to 100 feet of up to 1 inch tape.

**Fanfold Tape Guide**
Guides fanfolded tape into punch. Fanfold tape comes in a box which will fit into the slot normally occupied by the tape roll.

**Notes:**
1. Order 146164 **Shelf. Includes tape guides.**
2. Order 146163 **Shelf.**

  - Same except **AC332** lacks rear bottom cable raceway (shown).
  - Both include floor anchors.
**Form Supply and Accumulator**
Holds supply of fanfold forms going into set, and accumulates forms coming out. Forms can be 6 to 12 inches long, 8½ inches wide. Adds 17 inches to depth of set.

**Adjustable Copyholder**
Serves as typist's easel. Replaces one already on set with one that's adjustable.

**Tape and Chad Bin**
Provides a place for tape to collect between the time it's punched and the time it's read. Handles up to 100 feet of up to 1 inch tape.

**Fanfold Tape Guide**
Guides fanfolded tape into punch. Fanfold tape comes in a box which will fit into the slot normally occupied by the tape roll.

**Notes:**
1. Order 146164** Shelf. Includes tape guides.
2. Order 146163** Shelf.

**Unwinders**

**Winders**

**Notes:**
1. Winders and unwinders are described on page 11.
2. A two letter paint color-finish suffix must be specified, see page 15.
notes:
1 Order 399100 Mounting Board (shown). Mounts a winder, unwinder, and reader. Laminated plastic covered and is 28 by 16 by 1/4 inches, 12 pounds.
2 Not mounted. Set next to reader.

*Winders and unwinders are described on page 11.
**A two letter paint color-finish suffix must be specified, see page 15.
**151799 Paper Roll Latch**
Secures spindle, prevents paper from clinging to set.

152300* * Directory
For table model sets.

152340 Multicopy
Roll Paper Adaptor
(Not shown)
Adapts 8½ inch platen set to use multicopy roll paper.

153046 Copyholder
Serves as typist's easel.

178387 Electrostatic
Charge Eliminator
Removes charge to prevent paper from clinging to set.

195837* Form Supply and
Accumulator
Holds fanfold forms going into set, and accumulates forms coming out of set.
Handles forms 3½ to 11 inches long, 8½ or 9 inches wide. Adds 14 inches to depth of set.

197941 Support
Prevents set tipping from weight of forms.

**146821** **Offset**
Copyholder
Front mounted. Serves as typist's easel.
For floor model set (shown).

**1789601** Offset
Copyholder
Front mounted. Serves as typist's easel.
For floor model set (not shown).

**152340 Multicopy**
Roll Paper Adaptor
(Not shown)
Adapts 8½ inch platen set to use multicopy roll paper.

**178387 Electrostatic**
Charge Eliminator
Removes charge to prevent paper from clinging to set.

**195837** Form Supply and
Accumulator
Holds fanfold forms going into set, and accumulates forms coming out of set.
Handles forms 3½ to 11 inches long, 8½ or 9 inches wide. Adds 14 inches to depth of set.

**197941 Support**
Prevents set tipping from weight of forms.

---

**153046 Copyholder**
Serves as typist's easel.

**1789601** Offset
Copyholder
Front mounted. Serves as typist's easel.
For floor model set (shown).

**151799 Paper Roll Latch**
Secures spindle, prevents paper from clinging to set.

**152300* * Directory**
For table model sets.

...winder and unwinder descriptions (cont’d)...

**notes:**
Order 320278** Shelf.
Order 199924 Top Shelf (shown on set) or 321585** Top Shelf (shown via Inset A).
Order 199918 Double Shelf (shown on set; provides top and bottom shelf) or 321586** Double Shelf (same except top shelf appears as shown via Inset A).
Order 199958 Shelf (shown on set) or 321584** Shelf (shown via Inset B).
Order 199934 Shelf (shown on set).

This unwinder sits on the floor.

**"Winders and unwinders are described on page 11.**
**A two letter paint color-finish suffix must be specified, see page 15.**
model

paper handling

307228** Offset Copyholder and Letter Tray
Provided typist's easel, letter tray, and purse hook. Adds 2 inches to depth, 5 inches to width, and 8½ inches to height of the set.

194822 Directory Holder
(normally mounted on left side)
Adds 2 inches to width of set.

151789 Paper Roll Latch
(not shown)
Secures spindle, prevents paper roll from being dumped out of holder if set is tipped.

152340 Multicopy Roll Paper Adaptor
(not shown)
Adapts 8½ inch platen set to use multicopy roll paper.

178387 Electrostatic Charge Eliminator
(not shown)
Removes charge to prevent paper from clinging to set.

194822** Form Supply and Accumulator
Holds fanfold forms going into set, and accumulates forms coming out of set. Forms can be 3% to 11 inches long and 3% to 9 inches wide. Includes pedestal foot rear extension to prevent set tipping from weight of forms. Adds 16½ inches to depth of set.

199935 LPW300** Paper Winder
Shown installed on pages 4, 6, and 8. Displays print-out leaving set and winds on spindle. Handles single ply paper up to 400 feet long, installed on Model 28 or 35 sets; up to 320 feet long, installed on Model 32 or 33 sets. Paper width can be 4 to 8½ inches. Automatically winds when paper is slack, and stops when taut. Motor driven: 115 vac 50/60 Hz. Removable spindle. Adds 7½ inches to depth, and 12 inches to height of terminal it is installed on. Order 193950 hardware to install winder on Model 28 or 35 sets. Order 178598 hardware for Model 28 or 35 Wall Mounted Sets; plus 320033 hardware for these sets when using paper 7 inches or less in width. Order 195259** hardware for Model 32 or 33 sets.

198640 YPW800GF Paper Winder
(for 37 terminal)
Same description as for LPW300 installed on a 35, except it is installed on upper portion of pedestal. All hardware included.

**A two letter paint color-finish suffix must be specified, see page 15.
**Tape Handling**

- **Reels and Adapters for Tape Winders and Unwinders**
  - **199901 (7 1/4") and 194748 (8 7/8") Reels**
  - **Shaft Adaptor**
    - 146828 permits reel to go on thinner (1/4") business machine shafts.
  - **Core Adaptor**
    - 146696 enlarges core to 3 1/4" diameter
    - 146806 enlarges core to 4 1/2" diameter
  - **162823 plus 194769 Reel**
    - Used on TWs 18 and 19.
  - **146238 Reel**
    - Used on TW17.
  - **199936 Supply Reel**
    - Used in Telespeed 1050 receiver terminals.
    - Handles up to 3000 feet of up to 1 inch tape.
  - **327000 Reel**
    - Used on Model 37 sets.
    - Handles up to 1000 feet of 1 inch tape.
  - **Core Adaptor**
    - 194412 enlarges core to 3 1/4" diameter
  - **327950GF Door with Tape Winder**
    - (top reel only)
    - or
    - **326960GF Door with Tape Winder and Tape Winder-Unwinder**
    - (as shown)
    - Each reel winds up to 1000 feet of 1 inch paper tape. Automatic — winds when tape is slack, stops when taut, vice versa for unwinding. 115 vac: 60 Hz.

- **Core Adaptors**
  - 146828 permits reel to go on thinner (1/4") business machine shafts.
  - 146696 enlarges core to 3 1/4" diameter
  - 146806 enlarges core to 4 1/2" diameter

- **Core Adaptors**
  - 146696 enlarges core to 3 1/4" diameter
  - 146806 enlarges core to 4 1/2" diameter

- **Core Adaptors**
  - 146696 enlarges core to 3 1/4" diameter
  - 146806 enlarges core to 4 1/2" diameter
The paper and tape handling accessories described in this catalog may be employed in many different configurations to organize and simplify media handling on your Teletype® data communications terminals. The proper combination of winders, unwinders, guides, and copy holders can greatly increase operator efficiency, and decrease the chances of lost or damaged data.

To simplify selection of the accessories required for your application, a number of typical paper and tape handling configurations are shown on pages 3 through 10. For winders and unwinders these pages will refer you to more detailed descriptive information on pages 11 through 13. Ordering information for spare reels, adapters, and tape splicers, and a table of available paint finishes are found on pages 14 and 15.

In cases where your tape must be moved from a winder to an unwinder, be sure that the "core" or hole diameter of the tape roll removed from the winder will fit on the unwinder.
Recommended Reading: Looking for up-to-the-minute answers about the latest Teletype data communications equipment? Teletype has informative brochures and fact sheets on equipment capability, applications, and case histories that are yours for the asking. For a current listing of available literature, please write for, "How to get information on Teletype equipment, applications and case histories," to Teletype Corporation, Dept. SP 85, 5555 Touhy Avenue, Skokie, Illinois 60076.
