UNCIASSIFIED
T- 8_NAVSHIPS 0967-034-9016 Date l AUGUST 1974
INTERIM CHANGE T- 8 TO NAVSHIPS 0967-034-9010
Technical Manual dated 7 April 1971 for Converter-
Comparator AN/URA-17, AN/URA-17A, and AN/URA-I7B.

## 区納HIS CHANGE DOES NOT SUPERSEDE ANY OTHER CHANGE. $\square$ THIS CHANGE SUPERSEDES

 $-$This Interim Change revises the manual to reflect the equipment changes made by Field Change(s) 8-AN/URA-17, 4-AN/URA-17A, 2-AN/URA-17B, and $2-A N / U R A-1 \overline{7 C}$ EFCB NAVSHIPS 0967-034-9130 dated 1 Auqust 1974.

## This Interim Change originally published in EIB 835

Maintenance Support Activities shall make this change immediately but shall keep the superseded data intact for support of equipments that have not been modified.

Holders of equipment shall not make this change in the manual until accomplishment of the field change referenced above.

Insert this Interim Change in the manual immediately after the front cover and preceding prior changes in effect.

Make pen-and-ink changes as follows:

1. Page 4-5, paragraph 4-2C(4):
(1) Line 13--change "deliver a strong positive" to read "deliver a positivo 6 volt."
(2) Line 18--change "delivers a strong negative" to read "delivers a negative 6 volts."
(3) Last line--after word "keyer" add "for High Level systems or provides a $\pm 6$ volt polar signal for Low Level systens."
2. Refer to figure 1 of this article and make the following changes to page 5-11, 5-12 figure 5-6 and page 6-25, 6-16 figure 6-5:
(1) Delete "R60" and "220." Change the resistor symbol to show a zener diode with the anode ( + ) side connecting to the junction of R59 and Q16. Label this diode "CR35". "1N3828A."
(2) Delete the circuit symbol number "R61" and the value "220." Change the resistor symbol to show a zener dio'de with anode ( + ) side connectiag to the Junction of 263 and ground. Iabel this diode "CR36", "1N3828A."
(3) Add the symbol for a capacitor between the collector of Q16 and ground. Iabal this capitor "C33, 2.5."
(4) Add wte between collector of Q14 and J1-8.
(5) Delece the symbol, symbol number and value for resistors R65 and R67.
(6) At the top of page above Q13. waveforn $C$, change " $+3.2 V$ " to read $\pm 6.2 \mathrm{~V}$."
(7) On the bottom of the pare following the word Dlagram add "for Low Level Polar Output."
3. Page 6-15, 6-16, Table of coordinates:
(1) Under Reference Designation after C32 add "C33"; opposite C33 under coordinates add "13C."
(2) Under Reference Desigaation after CR34 add "CR35" and "CR36." Opposite CR35 and CR36 under coordinates add "12B."
4. Page 6-11, 6-12; figure 6-3:
(1) Change R60 to show a diode with the ( + ) side connected to R59. Label this diode "CR35." Delete circuit symbol number "R60."
(2) Change R61 to show a diode with the $(+)$ aide connected to terminal 43. Label this diode "CR36." Delete circuit symbol number "R61."
(3) Show a capacitor between the right terminal of R65 and the $(4)$ side of CR22. Label this capacitor "C33."
(4) Show a wire connecting TB2 terminal 50 and the right teminal of R65.
(5) Delete resistors R65 and R67.

their asaociated Description and Locating Function.
(2) Delete "R65" and ita Descrip-
tion and Locating Function.
8. Page 7-15, Table 7-1:
(1) Delete "B67" and its Description and Locating Function.
9. Page 1-8, Table 1-6;
(1) Add es ibiola "CR35" and "CR36."
(2) Add colun for diode type "3N3828A."
(3) Oppooite CR35 under 1N3828A add
"1."
(4) Opposite CR36 under 1N3828A add
"1."
(5) Opposite total number each type wader JN3828A add "2."
(6) Under total colum change 34 to read "36."

# TEMPORARY CORRECTION T-7 <br> TO TECHNICAL MANUAL FOR COMPARATOR-CONVERTER GROUP 

> AN/URA-17, AN/URA-17A

NAVSHIPS 0967-034-9010 (formerly NAVSHIPS 94028)

The ordering number for this Temporary Correction is NAVSHIPS 0967-034-9015.
This temporary correction revises the manual to reflect the equipment change made by Field Change 6-AN/URA-17 and Field Change 2-AN/URA-17A. The purpose of this field change is to replace wide-shift bandpass filter, FL1, and wide-shift discriminator filter, FL3, with filters having a center frequency of 2000 Hz .

When this change is included in the manual, the manual shall cover the equipment as though Field Change 6-AN/URA-17 or Field Change 2-AN/URA-17A had been accomplished in the equipment. This correction supersedes T-3 to NAVSHIPS 0967-034-9010.

Maintenance support activities shall make this correction in the Technical Manual immediately, but shall keep the superseded data intact for support of equipment that has not been modified.

Holders of equipment accompanied by Technical Manuals shall not make this correction in the manual until accomplishment of the field change.

Make the following pen-and-ink corrections. Insert this temporary correction in the Technical Manual immediately after the front cover and preceding $T-6$.

1. Page 1-3, paragraph 1-5b., third line; correct 2550 to read 2000.
2. Page 3-3, paragraph 3-2g.(1)Step 6, second line; correct 2.5 to read 2.
3. Page 3-4, paragraph $3-2 g(2)$, Step 6 , second line; correct 2.5 to read 2. Paragraph 3-3 $\underline{a}$ (3) (a), second line; correct 2.5 to read 2.
4. Page 4-1, Figure 4-3, Discriminator Response Curve (wide-shift Discriminator, FL3); correct 2050 to read 1500, 2550 to read 2000 and 3050 to read 2500. Paragraph $4-2 \underline{b}(1)$, eleventh 1 ine; correct 2550 to read 2000.
5. Page 4-3, paragraph $4-2 \underline{b}(3)$, second paragraph of the page, fifth line; correct 2550 to read 2000. Sixth line; correct 3400 to read 2850. Eighth line; correct 1700 to read 1150.
6. Page 6-4, paragraph 6-3d(6) (a), Step 6; correct 2550 to read 2000.
7. Page 6-5, Table 6-2 Filter characteristics: Column, "Input Termination"; correct 2550 to read 2000. Column "OUTPUT TERMINATION"; correct 2550 to read 2000. Column "REQUIRED FREQUENCY RESPONSE"; correct 2050 to read 1500 and 3050 to read 2500. Column "INSERTION LOSS"; correct 2550 to read 2000.
8. Page 6-6, paragraph 6-3d(7) (a), Step 10 ; correct 1500 to read 950.
9. Page 6-7, Figure 6-1, Discriminator Frequency Response Curves "WIDE SHIFT"; correct as indicated.
"PEARS" -1.15 vice 1.7 and 2.85 vice 3.4 "SUM OF ABSOLUTE VOLTAGES"1.65 vice 2.2 and 2.35 vice 2.9 .
"MINIMUM VOLTAGE CHANGE" - 1.65 vice 2.2 and 2.35 vice 2.9 .
"CENTER FREQUENCY" - 2.00 vice 2.55. Correct scale as indicated: 1.25 vice $1.8,1.65$ vice $2.2,2.05$ vice $2.6,2.45$ vice $3 ; 2.85$ vice 3.4 .
10. Page 6-9, paragraph 6-3d(7)(a), Step 11 , second line; correct 3700 to read 3150. Step 13; correct 2200 to read 1650; correct 2900 to read 2350; correct 2500 to read 1950; correct 2600 to read 2050; correct 1700 to read 1150 and correct 3400 to read 2850.
11. Page 7-7, "MAINTENANCE PARTS LIST", REF DESIG FLl, under column, "NAME AND DESCRIPTION", correct 2550 where appearing to read 2000 and delete all after 1-3/4 in. W. REF DESIG FL3, under column "NAME AND DESCRIPTION"; correct 1700 to read 1150; correct 3400 to read 2850; correct 2500 to read 2000 and delete all after $1-1 / 2$ in. W.

Record this action on the Record of Corrections Made page.

TETPCRARY CHANGE T-6 to TECHNICAL MANUAL IOT COAparstor-Conrerter Group AN/URA-17, NAYSHIPS 0967-034-9010 (Formerly NAVSHIPS 94028).

This Temporary Change contains information originaliy publisbed as separat articles (Technicał Manual Corrections) in the Electronica Information Bulletin, (EIB), numbers: 687.

The instructions, described herein, for making these changes shail be followed only if they have not been previously accomplished at the time the EIB, in which the information appeared, was recelved.

The purpose of this Temporary Change is to assure that publications drawn from stock, subsequent to publication of this information in the EIB, can be corrected.

Insert this Temporary Change in the technical manual immediately behind the front cover and preceding the title page or preceding the latest chenge or correction in effect.

Make pen-and-ink corrections or changes to the technical manual as follows:

This corraction revises the manazl to reflect sbe use of the latest preferred test equipment.

Refer to NAVSHIPS 94028, page 1-6, Table 1-3. With pen-and-ink, correct the NOMENCLATURE columns so that they agree with the following:

Oscilloscope
Electronic Aultimeter
Signal Generator
Digital Rezadour Electronic Counter
Muitimeser
Semiconductor Device Test Set

AN/USN-117
ME-6D/U
AN/URM-127
AN/USM-207
AN/PSM-4B
AN/USM-206

Page 5-5, paragraph 5-4g(2) (a). Correct the rest equipment so that it agrees with tbe list above.

Page 5-9, paragraph 5-fgy (2) (s). Correct che test equipreat'so that it agreex with the lise above.

Paze 6-0, paragraph 6-2s. Cortect tiot zest equipment so thet it agrees with the list above.

TEMPORARY CHANGE 5, NAVSHIPS 0967-034-9013, to TECHNICAL MANUAL FOR COMPARATOR-CONVERTER GROUP AN/URA-17A, NAVSHIPS 0967-0349010, formerly NAVSHIPS 94028.

PREPARED BY
Gulf Aerospace Corporation
Houston, Texas

This temporary change to the manual reflects the equipment changes in the Comparator-Converter Group AN/URA-17A as manufactured by Gulf Aerospace Corporation.

Make the following pen-and-ink corrections:

1. Throughout the manual, add "and AN/[゙つA-17A" after every reference to Comparator-Converter Group AN/URA-17.
2. On page 1-1, paragraph 1-1, line 4, insert "and Contract NObsr 91222(FBM)" at the end of the line.
3. On page 7-22, Table 7-2, make the following additions:

| Abbreviation | Name | Address |
| :---: | :--- | :---: |
| GAC | Dialco Electric Corp. | Brooklyn, N. Y. |
|  | Gulf Aerospace Corp. | Houston, Texas |
|  | Hughes Aircraft Corp. | Newport Beach, Calif, |
|  | Motorola Inc. | Phoenix, Arizona |
| TRW | Whompson Ramo | Cleveland, Ohio |
|  | United Transformer Co. | New York, N. Y. |

Insert pages 2 through 8 of this tempory change prior to page 7-1 of the technical manual.

Insert this temporary change in the technical manual immediately after the front cover.

## SUPPLEMENTARY PARTS LIST

## NOTE:

Table 7-1 has been corrected by means of the following supplementary table, For any given item, always refer first to the supplementary table, since it completely supersedes any corresponding listing in the basic table. If no information is shown for a given item, refer to the basic table for the required information.

# TEMPORARY CHANGE T-4 TO TECHNICAL <br> MANUAL FOR COMPARATOR-CONVERTER <br> GROUP AN/URA-17 NAVSHIPS 0967-034-9010 

(FORMERLY NAVSHIPS 94028)

This temporary change revises the manual to reflect equipment changes. The purpose of this change is to replace wide bandpass filter FLl and wide discriminator FL3 with filters having a new center frequency of 2000 cps. The field change applies to AN/URA-17.

This correction does not supersede any other corrections or changes.
Make the following pen-and-ink corrections. Insert this temporary correction in the technical manual immediately after the front cover and preceding T-3.

1. Front cover, under AN URA-17, add: "AN/URA-17B".
2.. Title sheet, under AN/URA-17, add: "AN/URA-17B".
2. Paragraph l-4b, d following sentence: "AN/URA-17B: Wide shift, 2000 cps mean frequency; width of shift, 200 to 1000 cps."
3. Paragraph 3-2g (1), step 6, add following sentence: "AN/URA-17B: adjust receiver bfo to 2.0 KC for wide-shift signals".
4. Paragraph 3-2g (2), step 6, add following sentence: 'IAN/URA-17B: adjust receiver bfo to 2.0 KC for wide-shift signals''.
5. Paragraph 3-3a (3) (a), add following sentence: "AN/URA-178: set receiver bfo to 2.0 KC for wide-shift signals".

TEMPORARY CHANGE T-4 to NAVSHIPS 0967-034-9012

TEMPORARY CHANGE T-4 to NAVSHIPS 0967-034-9012
7. Paragraph 4-2b (1), add following sentence: "AN/URA-17B, the wide filter, FLI, is used when the center frequency of the input signal is 2000 cps with shifts of 100 to 500 cps each side of center.
8. Paragraph 4-2b (3), add following new subparagraph: 'For AN/URA-17B, the wide-shift discriminator, $F L 3$, is used for input signals with shift widths of 200 and 1000 cps . The wide shift discriminator contains two resonant networks with a cross over frequency of $2000 \mathrm{cps} \leq 40 \mathrm{cps}$. The output from terminal 1 increases with frequency to about 2850 cps . The output from terminal 4 increases as frequency decreases to a maximum at approximately $1150 \mathrm{cps}{ }^{\prime \prime}$.
9. Figure $4-3$, response curve for wide-shift discriminator, FL3, add following note:
"For AN/URA-17B, the cross-over frequency is 2000 cps with a lower frequency of 1500 cps for space and an upper frequency of 2500 cps for mark'.
10. Paragraph 6-3d (6) (a), add following sentence: "For AN/URA-17B, set audio oscillator to 2000 cps , measured with frequency meter'.
11. Table 6-2 under INPUT TERMINATION and OUTPUT TERMINATION columns for FLI, add: "AN/URA-17B: $8000 \pm 5 \%$ at $2000 \mathrm{cps} "$.
12. Table 6-2 under REQUIRED FREQUENCY column for FLI, add: "AN/URA-178: 1500 to 2500 cps' ${ }^{\prime}$.
13. Table 6-2 under INSERTION LOSS column for FLI, add: "AN/URA-17B: 3 db maximum at $2000 \mathrm{cps}^{\prime \prime}$.
14. Paragraph 6-3d (7) (a), step 10, add following sentence: "AN/URA-17B: adjust audio oscillator to 950 cps , using frequency meter, keeping output voltage at 6.0 volts'".
15. Paragraph 6-3d (7) (a), step 11, add following sentences: "AN/URA-17B: Increase audio oscillator frequency in 50 cps steps to 3150 cps . Record multimeter voltage indication at each frequency".
16. Paragraph 6-3d (7) (a), step 13, add following sentences: "AN/URA-17B: Draw a straight line between 1650 and 2350 cps points. Frequency deviation from curve shall not be greater than 35 cps . Cross-over point shall be between 1950 and 2050 cps . Peaks shall be $1150 \pm 100 \mathrm{cps}$ and $2850 \leq 150 \mathrm{cps}{ }^{\prime \prime}$.
17. Figure $6-1$ response curve for wide-shift discriminator, add following note:

## "AN/URA-17B: WIDE-SHIFT

Peaks: 1.15 KC and 2.85 KC
SUM OF ABSOLUTE VOLTAGES AT
1.65 and $2.35 \mathrm{KC}: 0.0 \pm 0.03 \mathrm{~V}$

Minimum voltage change between
1.65 and $2.35 \mathrm{KC}: 0.26 \mathrm{~V}$

CENTER FREQUENCY: $2.00 \mathrm{KC} \pm 0.04 \mathrm{KC}$
MAXIMUM LINEARITY DEVIATION: 30 cpsi .
18. Figure $6-1$, response curve for wide-shift discriminator, add following scale:

AN/URA-17B:
Under 1.8, add: "11.25".
Under 2.2, add: "1.65".
Under 2.6, add: "2.05".
Under 3.0, add: " 2.45 ".

Under 3.4, add: "2.85".
19. Table 7-1, MAINTENANCE PARTS LIST, FLI, under NAME AND DESCRIPTION, add the following note:
"AN URA-17B: FILTER BANDPASS: $2000 \mathrm{cps} \underline{\leq} 50 \mathrm{cps}$ operating frequency: 8000 ohms $\pm 5 \%$ input/output impedance at $2000 \mathrm{cps} ;$ four terminals;
$21 / 4 \mathrm{in}$. (1) by $21 / 4 \mathrm{in}$. (h) by $13 / 4 \mathrm{in}$. (W)'".
20. Table 7-1, MAINTENANCE PARTS LIST, FL3, under NAME AND DESCRIPTION, add the following note:
"AN URA-17B: FILTER BANDPASS: peaked at $1150 \mathrm{cps} \pm 100 \mathrm{cps}$ and 2850 cps $\pm 150$ cps with cross-over at $2000 \mathrm{cps} \pm 40 \mathrm{cps} ;$ four terminals; $21 / 4 \mathrm{in}$. (1) by $13 / 4 \mathrm{in}$. (h) by $1 / 2 \mathrm{in}(\mathrm{W})$ ".

T-3 to MAVBAIPS 94028

## TEMPORARY CORRBGMIOM T-3 TO TEGENICAL MANUL FOR COMPARATOR-CONVZZTER GROUP AN/URA-17 MAVBEIPS 94028

This temporary corroction rovises the manual to reflect the equipment changss made by fisld change 4-AN/URA-17. The puspose of this fisld changs is to roplaca wide bandpass filtor FLi and wide discriminator FL3 with filtors haying a now canter Erequency of 2000 ops. The field change appliea to AH/URA-17.

Whon this change is included in the manual, the mas aball covsr the equipment as though Fisld Change 4-AN/URA-17 had besn aooomplished on the oquipment. This correction does not suparsed any other oorpootions or ohanges.

Maintenane Support Activitioa shall mak thls oorrootion In the tochnical manal immodiately but shall koop the superasded date intact for support of quipents that have not boen modifiso.

Holders of oquipment acoompanied by toohniesl manuala shal: not make this corrsotion in the manul until accomplishment of the Fiold ehange.

Make the following pen-and-ink corrections. Insert this tomporary correetion in the technical manual immediately after the Pront $0070 r$ and prosealug $\mathrm{T}-2$.

1. FPont cover, under AK/URA-17, add: "AN/URA-53".
2. Tit1s ahoot, urdor AN/URA-17, add: "AN/ORA-53".

CORRECMION T-3
HAvsiles 0967-034-9012
3. Paragraph 1-4ㅇ, add following sentenco: "AB/URA-53: Wide shift, 2000 ops mean irequency; width of shift, 200 to 2000 cps."
4. Peragraph 3-2g(1), 3tap 6, add following sontonce: "AN/URA-53: adjust receivar bfo to 2.0 KC for uide-shift gignals".
5. Paragraph 3-2 g (2), stop 6, add following santoncs: "AN/URA-53: adjuat rocoivor bro to 2.0 KC for Hide-shift aignala".
6. Paragraph 3-3 a (3) (a), add following sentsncs: "AN/URA-53: set receivor bio to 2.0 KC for wide-shift signals".
7. Paragraph 4-2 b (1), add following sentonce: "AY/ORA-53, the wide iliter, fll, is used when the conter irequeney of the laput signal is 2000 cps with shifts of 100 to 500 cps each sido of conter.
8. Paragraph $4-2$ b (3), add following nam subparagraph:
"For AN/URA-53, the wids-shift discriminator, FL3, is used for input signals with shift widths of 200 and 1000 ops. The wide sinipt discriminator containg two resonant networds with a oross over frequency of $2000 \mathrm{cps} \pm 40 \mathrm{cps}$. The output from tarminal 1 inerosses with frequeney to about 2850 cps . The output from torminal 4 increases as froquency docreases to a maxinum at approximately 1150 cps ".
9. Figure 4-3, response curve for wide-shift discriminator, FL3, add following note:
"Por AN/URA-53, the cross-over frequency 1s 2000 cps with
a lower frequeney of 1500 cps for apace and an upper frequenos

$$
\text { Pago } 2 \text { of } 4
$$

of 2500 cpz for marix".
10. Paragraph 6-3d (6) (2), add following sintence: " M/URA-53, at audio osolilator to 2000 cpa , masurod with isequency motor".
11. Table 6-2 undar INPUT TEMATHATIOM and OUTPUR TERMIAATIOS solumns for FLl, add: "AN/URA-53: 8000 t 5\% at 2000 opa". *
12. Table 6-2 under REQUIRED FREquzacy coluan Ios FLi, add: "AS/URA-53: 2500 to 2500 ops".
13. Table 6-2 undor IMSERTON LCSS oolumn For FLl, add: "AN/CRA-53: 3 db maximum at 2000 ops".
14. Paragraph 6-3 a (7) (a), step 10, add follewins centonce: "AB/URA-53: Adjust audio ossiliator to 950 epa, uadms Prequeney wotir, keoping output voltaze at 6.0 volta".
15. : aragraph 6-3 a (7) (a), ntop 21, add follewing
 50 ops atepa to 3150 ops. Resord multimeter voltage indieation at osoh frequancy".
16. Parsgraph 6-3 ( (7) (g), stap 13, add Sollowing matenoen: "AB/URA-53: Draw a mraight line betweon 7650 and 2350 ops pointe. Prequenoy deviation frow ourve shall not be greater than 35 cps . Croseover point chall bo botwenn 1950 and 2050 eps. Poaks shall be $1150 \pm 100$ ops and $2850 \pm 150$ ops.
17. Figure 6-1 reaponse curve for wide-ahift disarion inator, ad following note:

$$

## TEMPORARY CORRECTION T - 3 to TECHNICAL MANUAL FOR COMPARATOR CONVERTER AN/URA-17

This temporary correction revises the manual to reflect production changes made to the equipment to reduce radio infarference. This change applies to all equipments supplied under Contracts NObsr 87493 and NObsr 89307 . This correction does not supersede any other corractions or changes.

Maintenance Support Actiyities shall make this correction in the technical manual immediately but shall keep the suparseded data intact for support of equipments that do not include this production change.

Make the following pen-and-ink corrections. Insert this temporary correction in the technical manual immediately affer the front cover and preceding T-2.

| $\begin{gathered} \text { PAGE } \\ \text { NO. } \end{gathered}$ | CHANGE IN EFFECT | PARA \& LINE OR FIG \& LOCATION | ACTION |
| :---: | :---: | :---: | :---: |

## TEMPORARY CORRECTION T-2 to TECHNICAL MARUAL FOR COMPARATOR-CONVERTEA AN/URA-17 NA VSHIPS 94028

This tamporary correction reviaes the manual to reflect the equipment changea made by Fiald Change 2-AN/URA-17 and 3-AN/URA-17. The purposes of these field changes are to replace resistorg R20 and R22 to tmprove reliability of capacitors $\mathrm{C}-12$ and $\mathrm{C}-13$, and replace resistor R 71 to provide battar centering of -48 volt DC power aupply adjuatment range. The fleld ohangas apply to AN/gRA equipments, seriala A1 threugh A155. All lator AN/gha-17 equipments were corrected by identicalproduction changes.

When these changen are included in the manual, the manal shall cover the equipment as though Field Chages 2-AN/URA-17 and 3-AN/URA-17 had been accompliahed on the equipment. This correction coess not supersede any other corrections or changes.

Maintenance Support Activities shall make this correction in the technical manual immediately but anall keep the supersieded data intact for support of equipments that have not been modified.

Holderf of equipment sccompanied by technical manuals shall not make this correction in the maxual until accomplishment of the field change.

Make the following pen-and-ink corrections. Insert this temporary correction in the techaical manual inmediately after the front cover and preceding T-1.

1. Table 1-1. Comparator-Converter Group AN/URA-17, Equipment Supplied.

Add, fust above "2-Technical Manual - NAVSHIPS 94028": 6-CLAMP, CABLE -AN3057-6.
2. Figure 5-4. Frequency Shift Converter CV-483/URA-17, Sigral Processing Cirouits, Functional Schematic Diagram.

Change values of R20 and R22 from 1800 to 2200.
3. Figure 5-8. Frequency Shift Converter CV-483/URA-17, Power Supplies, Funetional Schematic

## Disgrama.

Change value of R71 from 2200 to 2700.
4. Paragraph 6-2h, "MARK AND SPACE GAIN CONTROL ADJUSTMENTS."

Step 3, line 2: Change WIDE to NARROW
Step 5, line 1: Change 2550 to 1000
Step 3, line 2: Change FL3 to FL2
Stap 9, IInes 1
and 2: $\quad$ Change FL3 to FL2
Step 10, line 3: Change FL3 to FL2
Stap 11, line 2: Change FL3 to FL2
5. Paragraph 6-21. "DC DIFFERENTIAL AMPLIFIER ADJUSTMENTS."

| Step 9, line 2: | Change 3200 to 1200 |
| :--- | :--- |
| Step 14, line 3: | Change +32 to +35 |
| Step 15, lines 5, |  |
| 6 and 7: | Delete last two sentences |
| Stepa 16, 17: |  |
| and 18: | Delete |
| Step 19: | Change to "Step 16" |

6. Figure 6-5. Frequency Shift Converter CV-483/URA-17, Over-all Schemath Diagram. Change value of R71 from 2200 to 2700 . Change values of R20 and R22 from 1800 to 2200.
7. Table 7-1. Comparator-Conyerter Group AN/URA-17, Maintenance Parts Liat. Add: "E2-CLAMP, CABLE: AN3057-6." Secure cables to connectors.
Change "Name and Description" column entry for R20 to: RESISTOR, FIXED, COMPOSITION:
8. $2 \mathrm{k}+10 \%$, 1 W ; MIL-R-11 type RC32GF222K; pert MS35044-15.

Change "Name and Description" column entry for R71 to: RESISTOR, FLXED, COMPOSITHON:
3. $7 \mathrm{k}+10 \%, 1 / 2 \mathrm{w}$; MIL-R-11 type RC20GF272K; part MS35043-206.
8. Record this action on RECORD OF CORRECTIONS MADE page.

## CORRECTSON T-2

TEMPORARY CORRECTION T-1 TO TECHNICAL MANUAL FOR COMDARATOR-CONVERTER GROUP AN/URA-17, NAVSHPS 94028

This tamporary correction changes tha manual to reflect the equipment changes made as the resuit of cealgn ohangea.
data the tollowing pen and link corrections. Insert this temporary correction in the techntcal manual Immediataly aflar the front covar.
