306985	LP19RX/AN	28E	LP137RX/AJQ	28AM

1. GENERAL

a. The 306721 through 306725, 306984, 306985, 319194, 319198, 319199 and 319250 modification kits convert printers and stunt boxes as shown in the above chart for use in the 83B3 Selective Calling System.

b. The contents of the kits are to be found on the check list which comes with each kit.

c. For parts ordering information see Teletype Parts Bulletin 1149B.

2. INSTALLATION

a. The 306721 modification kit to convert LP15RX/AR (28D) to LP118RX/AJM (28AF).

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following modification kits as given in the specification found with each kit:

Modification Kit	50000S Specification
154727 modification kit: aux. connector	5839S
178358 modification kit: stunt shift control	5823S
199816 cable assembly, wire per 7020WD	
306726 modification kit: to convert stunt box AR to stunt box AJM	50366S

b. The 306722 modification kit to convert LP15RX/AR (28D) to LP119RX/AJN (28AK).

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following modification kits as given in the specification found with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
*172625 modification kit: to convert friction feed unit to sprocket feed unit.	5792S
176182 modification kit: 8-1/2" platen	5792S
154771 modification kit: vertical tab	50004S
154760 modification kit: vertical tab 8" form-out	50004S
178301 modification kit: vertical tab control	50004S
178358 modification kit: stunt shift control	5823S
154727 modification kit: auxiliary connector	5839S
154741 modification kit: LAC terminal board and cable (to be kept with printer until installed in cabinet)	5827S
153926 modification kit: console paper guide	5792S
*304772 paper guide	
306727 modification kit: to convert stunt box AR to stunt box AJN	50366S
199816 cable assembly: wire per 7020WD	

*Paper tray indicated as ordered separately in 172625 modification kit is supplied when used with 306722 modification kit.

c. The 306723 modification kit to convert LP15RX/AR (28D) to LP121RX/AJQ (28AM).

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following modification kits as given in the specification formed with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
154741 modification kit: LAC terminal board and cable (to be kept with printer until installed in cabinet)	5827S
178358 modification kit: stunt shift control	5823S
306728 modification kit: to convert AR stunt box to stunt box AJQ	50366S
Wire per 7021WD	

d. The 306724 modification kit to convert LP49RX/AFG (28L) to LP118RX/AJM (28AF).

(1) Remove the 157509 on-line control modification kit.

(2) Install the following modification kits as given in the specification found with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
178358 modification kit: stunt shift control	5823S
306729 modification kit: to convert AFG stunt box to stunt box AJM	50366S
199816 cable assembly - Wire per 7020WD.	

e. The 306725 modification kit to convert LP92RX/AHD (28S) to LP119RX/AJN (28AK).

(1) Remove the following modification kits from the printer:

152350 modification kit: keyboard lock
154761 modification kit: 8-1/2" form starter
157509 modification kit: on-line shift control
163535 modification kit: T.D. control vert. tab.

(2) Install the following modification kits as given in the specification found with each kit.

<u>Modification Kit</u>	<u>50000S Specification</u>
154760 modification kit: vert. tab 8" form	50004S
178301 modification kit: vert. tab T.D. control	50004S
178358 modification kit: stunt shift control	5823S
306730 modification kit: to convert AHD stunt box to stunt box AJN	50366S
199816 cable assembly - wire per 7020WD	

f. The 306984 modification kit to convert LP19RX/AN (28E) to LP118RX/AJM (28AF).

(1) Remove the following modification kits:

152350 modification kit: keyboard lock
153919 modification kit: double connector
153920 modification kit: sel. cal. cabinet parts
157509 modification kit: on-line shift control

(2) Install the following modification kits as given in the specification found with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
154727 modification kit: auxiliary connector	5839S
178358 modification kit: stunt shift control	5823S
154741 modification kit: LAC term. board and cable (to be kept with printer until installed in cabinet)	5827S
199816 cable assembly - wire per 7020WD	
306986 modification kit: to convert stunt box AN to stunt box AJM	50366S

g. The 306985 modification kit to convert LP19RX/AN (28E) to LP121RX/AJQ (28AM).

(1) Remove the following modification kits:

- 152350 modification kit: keyboard lock
- 153919 modification kit: double connector
- 153920 modification kit: sel. calling cabinet parts
- 157509 modification kit: on-line shift control

(2) Install the following modification kits as given in the specification found with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
178358 modification kit: stunt shift control	5823S
306987 modification kit: to convert stunt box AN to stunt box AJQ	50366S

h. The 319194 modification kit to convert 28D to 28AT.

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following modification kits as given in the specification found with each kit:

<u>Modification Kit</u>	<u>50000S Specification</u>
172625 modification kit: to convert M28 friction feed unit to sprocket feed unit	5792S
176182 modification kit: 8-1/2" platen	5792S
304772 paper tray	
178358 modification kit: stunt shift control	5823S
154771 modification kit: vertical tab	50004S
154760 modification kit: vertical tab 8" form	50004S
153926 modification kit: console paper guide	5792S
319272 modification kit: to convert AR stunt box to AJY stunt box	50366S

i. The 319198 modification kit to convert 28D to 28AN.

(1) Remove the 152350 keyboard lock modification kit.

(2) The 319198 modification kit contains necessary parts to convert the stunt box also. To install the stunt box parts, refer to Specification 50366S.

(3) Install the following kits as given in the specification found with each kit.

<u>Modification Kit</u>	<u>50000S Specification</u>
198394 modification kit: code reading contacts	5804S and 50069S
194324 modification kit: paper-out alarm	5888S

j. The 319199 modification kit to convert 28D to 28AU.

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following kits as given in the specification found with each kit.

<u>Modification Kit</u>	<u>50000S Specification</u>
172625 modification kit: to convert M28 friction feed unit to sprocket feed unit	5792S
176182 modification kit: 8-1/2" platen	5792S
304772 paper tray	
178358 modification kit: stunt shift control	5823S
154771 modification kit: vertical tab	50004S
154760 modification kit: vertical tab 8" form	50004S
153926 modification kit: console paper guide	5792S
157508 modification kit: horizontal tab	5864S
319273 modification kit: to convert AR stunt box to AJZ stunt box	50366S

k. The 319250 modification kit to convert 28D to 28AL.

(1) Remove the 152350 keyboard lock modification kit.

(2) Install the following kits as given in the specification found with each kit.

<u>Modification Kit</u>	<u>50000S Specification</u>
172625 modification kit: to convert M28 friction feed unit to sprocket feed unit	5792S
176182 modification kit: 8-1/2" platen	5792S
304772 paper tray	
154727 modification kit: aux. connector	5839S
178358 modification kit: stunt shift control	5823S
154741 modification kit: LAC Term. board and cable	5827S
154771 modification kit: vertical tab	50004S
154760 modification kit: vertical tab 8" form	50004S
178301 modification kit: vertical tab control	50004S

Modification Kit (continued)

50000S Specification

153926 modification kit: console paper guide
319271 modification kit: to convert AR stunt
box to AJP stunt box

5792S
50366S
