CHANGES AND ADDITIONS TO PARTS BULLETINS

1028B, Issue 2, Model 14 Type Bar Tape Printer
1030B, Issue 2, Model 14 Type Bar Tape Printer
1031B, Issue 3, Model 14 Type Bar Tape Printer
1082B, Issue 2, Model 14 Typing Reperforator
1088B, Issue 2, Model 14 Typing Reperforator
1100B, Issue 2, Model 14 Typing Reperforator
1108B, Issue 2, Model 14 Reperforator Transmitter
1117B, Issue 2, Model 14 Portable Sending Receiving Typing Reperforator Transmitter Distributor Set
1126B, Issue 1, Model 14 Reperforator Transmitter

To standardize parts used on various units, the 74526 collar (5/16" O.D.) replaces the 7039 collar (3/8" O.D.) on the ribbon reverse shafts.

Two 124512 hardened washers should be installed on the 3154 shaft, one on each side of the 6743 or 98877 operating arm.

*NOTE: The two 124512 washers can be added only when the dimension of the operating arm at the bearing surfaces has been reduced from .872" to .792".

* Indicates Change
