

Teletype Corporation

model 42/43 customer assembled terminals

description, selection guide & prices

This document describes and specifies buffered model 42/43 components which lessors and resellers may individually order and subsequently assemble into the equivalent of certain Teletype Corporation manufactured terminals having assigned catalog numbers. These sets have the **identical** features and functions of the cataloged terminals.

The customer benefits by carrying only a minimum inventory and maximizing the probability of having a particular set available when it is needed.

COMPONENT DESCRIPTION

This offering utilizes three major components which are assembled into various combinations to produce the equivalent of cataloged sets:

1. Keyboard- Printers

When the specified feature group package and keytop set (if required) are added to the associated Keyboard-Printer Component, it becomes a functional terminal.

2. Feature Group Package

Consists of the following items:

- Features group circuit card
- Opcon label which denotes the function of the top row of keys
- Directory label for pullout tray

3. Keytop Modification Kit

If the selection guide indicates a keytop set is required, the keyboard of the specified keyboard-printer component must be modified.

These kits provide:

- The required keytops
- Keytop removal tool
- Teletype Corporation Specification 51049S

TERMINAL IDENTIFICATION

If the terminal has been customer converted from model 42 to 43 or vice versa, logo strips may be **ordered separately** to provide correct identification for the converted terminal:

model 42 logo—430907

model 43 logo—430906

DOCUMENTATION

If copies of the following documents are desired, they must be **ordered separately**:

How to Operate Manuals:

386M	The 43 Teleprinter Buffered KSR Terminals (Full Duplex Batch and S/R)
454M	42 Teleprinter Tabletop BKSR & ASR Terminal
466M	43 Teleprinter Buffered Selective Calling for Multipoint Private Line
480M	The 42 Teleprinter Buffered Selective Calling for Multipoint Private Line

Installation and Routine Service Manuals:

451M	The 43 Teleprinter Tabletop Buffered KSR Terminal
481M	The 42 Teleprinter Buffered Selective Calling Terminals
498M	43 Teleprinter Selective Calling Terminal

SELECTION GUIDE

Opposite its description and catalog number are listed those components required to assemble the terminal. Where a keytop set is indicated, one must be ordered.

Order the specified items on one-to-one basis.

PRICES

DESCRIPTION			Catalog Number: Factory Assembled Terminals	Components Required to Assemble the Equivalent of a Catalog Numbered Terminal			Catalog Number	List/Net
